#### Early Termination Fees

All our packages are subject to a minimum term. If your service is cancelled within this period, you will be charged an Early Termination Fee. This will be based on your package and the number of months that are left to run on your contract. To calculate a cancellation fee you will need to take the appropriate values from both below grids, add them together then multiply by the number of months remaining on your contract. If you are a broadband customer, remember to check the Equipment Fees section below to understand whether additional charges are applicable to you.

For the calls and line element of your package, the charge for terminating your contract early would be:

Name of your package	Cost per month remaining
italk 2 (Standard, Gold, Platinum or Connect)	£3.00
italk 3 (Standard, Gold, Platinum or Connect)	£5.50
italk now and then	£3.00
italk all the time	£5.50

Plus the cost of your internet service:

Broadband element	Cost per month remaining
Connect/Unlimited	£14.00
Unlimited Fibre	£18.00
Unlimited Superfast Fibre	£22.00
<i>I don't have broadband in my package</i>	<i>No charge</i>

With all our Broadband packages a wireless router is provided free of charge, so long as you remain in contract. If you return this equipment within 30 days of your cancellation date then there is no charge, however if you do not return the equipment in a timely manner you will accrue a charge of £65.00, and ownership of the equipment transfers to you. We will not accept returns of equipment after the 30 day period. For full information please read the Equipment Fees section below.

#### Equipment Fees

At the beginning of your contract with italk you will receive equipment from italk. This equipment is to assist you in connecting to the internet. This equipment is, unless otherwise agreed, property of italk. It is essential that any returned equipment is in good condition; complete including all relevant cables and returned undamaged in original packaging, and that this is done so in a timely manner. For best practice it is recommended that you keep and maintain the original box and packaging in good condition, and ensure that you follow the manufacturer's instructions for maintenance and use of any equipment.

If you cancel your contract at any time you must return the equipment to italk within 30 calendar days. Failure to return the equipment within this timeframe, or a return of faulty, damaged or partial equipment will incur a non-refundable charge. Please see the table below to identify which charge applies.

Router Model	Charge
Manufacturer: <b>ZyXEL</b> Colour of router: <b>Black</b>	£65.00
Manufacturer: <b>Technicolor</b> Colour of router: <b>White</b>	£35.00

If you need additional assistance in identifying your router, contact our Customer Care team.

## Fair Usage Policy (FUP)

The FUP\* applies to italk Connect Broadband packages only. (This does not apply to any 'Unlimited' packages)

It is in place to ensure that we can continue to provide an acceptable standard of service in terms of download speeds, to the vast majority of our customers.

We continually measure the performance of our services and take steps to restrict usage during peak periods which may contribute significantly towards the risk of a reduced quality of service being experienced by the majority of our broadband customers. The peak period is currently 9am to 11pm. The peak period may be subject to change dependent on usage patterns across the network.

Usage will be monitored on a continuous basis. Customers that exceed the permitted data download over a rolling 30 day period will be affected by the FUP. This is currently defined as per the limits detailed below, although we reserve the right to amend these limits in accordance with the terms of your Agreement.

Permitted data download over rolling period of 30 consecutive days 60GB of peak data download (9am - 11pm)

We expect that less than 1% of our customers will be affected by the FUP. Any Customers who are affected will be notified via email if their speed is being restricted. Where possible, we will always endeavour to provide advance notification by email to Customers approaching the limit.

Speed restrictions will only apply during peak periods. Should a Customer's usage return to acceptable levels, adjudged on a rolling 30 day period, speed restrictions will be removed.
